Dear Mr. Shulman:

Re: General Realty Landfill, SW 84
Linden Road, St. Joseph County

On February 23, 1976, representatives of this office inspected the above referenced site. The purpose of the inspection was to ascertain what progress had been made toward compliance with our letter dated December 23, 1975, copy enclosed.

The inspection revealed that neither of the violations listed in our previous letter had been corrected nor had the type of landfilling method been altered to reflect the approved trench operation by letter dated August 26, 1971, copy enclosed.

In accordance with your conversation with Mr. Dan Magoun of this office it was agreed that no additional refuse will be deposited at the site until all violations had been corrected with all future refuse hauled to the Superior Waste Landfill on Bitternut Road. Furthermore, operations at this site will be suspended until the method of landfilling to be instituted (area or trench) has been determined and appropriate plot plan to amend original proposal has been submitted for our review.

If you have any questions, please do not hesitate to contact Mr. Dan Magoun at 317/633-6400.

Very truly yours,

David B. Lamm, Acting Chief
Solid Waste Management Section
Division of Sanitary Engineering
